WELCOME MESSAGE

Welcome to the 2012 Manitoba Pharmacy Conference, presented by MSP, taking place April 20th to 22nd at the Winnipeg Convention Centre. We have an exciting conference lined up for you this year to keep you informed and entertained.

The Manitoba Society of Pharmacists is working with the Manitoba Pharmaceutical Association (MPhA), the Canadian Society of Hospital Pharmacists, MB Branch (CSHP) and the Canadian Association of Pharmacy Technicians – MB (CAPT) to provide pharmacists and technicians quality continuing education programs during our annual event.

The objective of this conference is to provide educational programming to advance pharmacy practice, enhance the knowledge of pharmacy practitioners, and enhance the quality of pharmaceutical care provided to patients.

This conference is also about being entertained and getting together with your fellow colleagues. The weekend will open with the Friday night Wine & Cheese Reception and the presentation of the Young Leaders Awards. On Saturday, we have the Annual Awards Banquet, and on Sunday, the Manitoba Pharmaceutical Association Awards Luncheon. Come on out and help us recognize the outstanding members and leaders of our profession.

Register online today!

Check out our website at www.mbpharmacyconference.com
for complete details on the sessions, speakers biographies.

FRIDAY, APRIL 20TH, 2012

Session A: The Evolution of Pharmacy Practice in Canada: The Future is Here

This program is an overview of the changing landscape of pharmacy practice across Canada. Governments are changing the reimbursement models in pharmacies in all provinces seeking more care and treatment for less money. Pharmacists are being challenged on their lack of engagement with expanded practice initiatives. Through a review of upcoming and current legislative changes, barriers and challenges impacting the evolving scope are explored. The changing role of pharmacy technicians and the impact on day-to-day business and professional operations in the pharmacy will also be presented. Material is drawn from the literature e.g., NAPRA Model Standards of Practice for Canadian Pharmacists; Blueprint for Pharmacy: Designing the Future Together. The mandatory pre-read material for this session is available on the conference website.

This session is sponsored by Pharmascience

1:00 pm to 2:00 pm
Pan Am Room

2 CEU

Sandra Carey
Vice President
B.Sc.Pharm, RPH
Strategic Innovation and
Business Development
The Health Initiative Inc.

Session B: QT Prolongation

Torsade de Pointes (TdP) is a potentially fatal arrhythmia that is always preceded by a lengthening of the QT interval on the EKG. Many medications are known to prolong the QT interval and increase the risk of TdP. Often drug interaction programs produce a warning of risk for TdP with medications known to prolong the QT interval but it is often unclear what to do. This presentation will suggest an approach for what to do in such situations.

Refreshment Break

Session C: Controversy Vaccination

As Manitoba pharmacists move towards an expanded scope of practice that would allow pharmacist administered vaccines, we move to the centre of the vaccination controversy. While vaccination represents one of the greatest public health triumphs in medical history, there has been a significant public backlash against vaccines. This session reviews the background to this controversy and seeks to immunize pharmacists with the information necessary to allow evidence informed discussions regarding vaccines and their safety.

Wine & Cheese Reception/Young Leaders Award Presentation

Awards are offered to new pharmacists and pharmacy students in their final year. The award is given to pharmacists/pharmacy students who have made a professional impact in their community or amongst their peers in the Faculty, and in the case of pharmacists, those who have been in practice for less than 5 years.

These awards afford the new pharmacist the opportunity to experience the professional development gained through participation in the Annual Manitoba Pharmacy Conference.

This award is sponsored by the Manitoba Society of Pharmacists and the Manitoba Pharmaceutical Association.

2:00 pm to 3:00 pm
Pan Am Room

1 CEU

Dr. Mark H. Friesen
B.Sc.Pharm, M.Sc.Pharm,
PharmD.

Open Discussion: CAPT Information/Regulation, etc.

3:15 pm to 3:30 pm • Millennium Room

CAPT would like to thank:

SATURDAY, APRIL 21ST, 2012

Buffet Lunch with Exhibitors

Please join our exhibitors for a quick bite to eat and visit the booths before the afternoon sessions begin.

Issues Forum

Open Discussion

This open forum will allow for issues to be raised from the floor. The discussions will be determined by those in attendance. No topics are off limits. All comments and questions are welcome. This session will provide an opportunity to explore matters not fully addressed at the annual general meetings.

Cardiopulmonary resuscitation (CPR)

The profession of pharmacy has evolved to a more hands on approach to patient care utilizing the advanced drug knowledge to deliver the desired patient outcome. As the profession of pharmacy continues to move into new domains such as prescribing, patient assessment and administration of vaccines, the need for pharmacists to be equipped with CPR training becomes an essential component in patient care. As a result, the current session will debate the need to mandate CPR training as part of the licencing requirement. Nursing, Medicine and other health disciplines have embraced this requirement as a societal expectation of their respective professions. As pharmacists, engaging in direct patient care every day....where do you stand on this issue?

Pharmacy Practice – Where are we going?

Why are we in this position in healthcare? Sandra will discuss her opinions on where pharmacy practice is heading based on national and global practices. She will highlight some of the issues of pharmacy practice, specifically our lack of standardized care. And she will address the issue of how we should define pharmacy services, what it needs to look like and whether it will survive the economic changes.

Military Pharmacists

Military Pharmacists are integral members of the Canadian Forces health care team. The role of a pharmacist is constantly changing; pharmacists must now be effective in identifying and resolving complex drug-related problems, they must dedicate time to consultation with patients, physicians, and other health care professionals. They are also expected to participate in the education of pharmacy students and interns, to become members of advisory and professional committees, and to maintain their clinical competence through structured and self-directed learning initiatives. This presentation will include an overview of the various roles of Military Pharmacists, training requirements and some of the personal and professional benefits and challenges of being a Pharmacy Officer in the Canadian Forces.

Refreshment Break with Exhibitors

11:30 am to 1:00 pm
Room 2EF

Reception & Silent Auction

All proceeds of this event go to the Pharmacist-At-Risk Program. The Pharmacist-At-Risk Committee is a group of individuals who are committed to helping a colleague or their family members with a personal problem. The program is voluntary, confidential, non-punitive and enables pharmacists to seek help or achieve resolution of a personal problem. We would greatly appreciate your support with our efforts to this cause.

6:00 pm to 7:00 pm
Pan Am Room

Annual Awards Banquet

Please join us in recognizing our outstanding members and leaders in our profession. Award Winners biographies are online at www.mbpharmacyconference.com

7:00 pm to 11:00 pm
Room 2GH

Manitoba Society of Pharmacists Award of Merit

This award is given to an active member of MSP who, in the opinion of his/her peers and the MSP Board of Directors has made a significant contribution to the Society and the profession during his/her career.

Elmer Kuber

Pfizer Consumer Health Bowl of Hygeia

This award is given annually in appreciation of the time and personal sacrifice devoted by pharmacists to the welfare of their respective communities.

Charles McClure

2011 Pharmacist of the Year

This award is given annually to a Manitoba pharmacist who, in the opinion of his/her peers, has made a significant contribution to the profession during his/her career.

Dinah Santos

Bonnie Schultz Memorial Award for Practice Excellence

The recipient of this award demonstrates outstanding excellence in optimizing patient care. Factors considered include serving as a role model; excellence in communication skills; compassion, empathy and concern; and demonstration of skilled practice.

Barbara Bromilow

Bristol Myers Squibb Past President Award, Manitoba Pharmaceutical Association

Magnus Opus Award

This award specifically recognizes pharmacists who have completed advanced training or education and have successfully expanded their practice as a result.

This award is sponsored by Takeda

Shawn Bugden

Colin Reeve

Entertainment – Dan Licoppe

Dan is a highly sought after professional stand-up comedian, writer and trainer/coach who headlines corporate events and clubs. Dan is a regular writer and contributor on CBC Radio; trains and coaches groups and individuals on public speaking and presentation skills; created and performed as NBC's Last Comic Standing's most memorable Season 5 performer, Mel Silverback; and teaches stand-up comedy and improv acting classes.

9:00 pm

SUNDAY, APRIL 22ND, 2012

Full Day Workshop: Principles for the Provision of Methadone by Manitoba Pharmacists Program

The MPhA Methadone program involves attending and participating in a full day, live workshop outlining the use of methadone for opioid dependence. Didactic lectures will be presented, personal stories will be shared, and case studies will be examined.

It is strongly recommended that at least one pharmacist in each pharmacy that dispenses methadone to have taken either the MPhA methadone professional development program or one of the other methadone maintenance treatment courses available in Canada. This program also serves as an introduction to pharmacists with little to no experience dispensing methadone.

Prior to attending the methadone program, the participant must:

- Read the MPhA Methadone Guidelines *Principles for the Provision of Methadone by Manitoba Pharmacists* (accredited for 1.5 CEUs) and available on the MPhA website at <http://www.mpha.mb.ca/pdf/FinalCouncilSofPMethadone20110627raf.pdf>
- Watch (or have previously attended) the University of Manitoba, Faculty of Medicine, Office of Continuing Professional Development DVD – *Methadone – An Introduction to Clinical Practice* (accredited for 5 CEUs) and available for viewing by emailing pgordon@mpha.mb.ca

CONCURRENT SESSIONS

Session D1: The Baby Boomers

Topic 1: Drug Safety & Effectiveness Network

The Drug Safety and Effectiveness Network (DSEN) was established in 2011 to conduct and coordinate research on the “real world” safety and effectiveness of drugs on the Canadian market. This session will introduce pharmacists to the work of DSEN and Manitoba’s involvement in this network. The role of this research for drug policy and frontline pharmacists will be explored.

Topic 2: Prostate Cancer: New and Upcoming Treatment Options

The focus of the presentation will be on 2 treatments:

- 1) Abiraterone acetate: a new oral medication used in the treatment of patients with metastatic hormone refractory prostate cancer and
- 2) Denosumab: treatment for bone metastases in patients with prostate cancer.

Topic 3: An International Perspective on Emerging Evidence to Manage your Menopausal Patients

This session will review the latest developments in managing menopausal symptoms as presented at the International Menopause Society (IMS) meeting 2011. Dr. Black will review major causes of morbidity and mortality in postmenopausal women and the health benefits and risks of Hormone Therapy, Gynecology and Reproductive Sciences

This topic is sponsored by Merck

9:30 am to 5:00 pm
Room 11/12 (Main Floor)
6 CEU

SUNDAY, APRIL 22ND, 2012

Session D2: Helping You Help Your Diabetes Patients

Effective Utilization of Blood Glucose Monitoring - Who, What , When and How Much

This interactive session seeks to:

- Demonstrate when and where SMBG is most effective in people with diabetes
- Introduce the concept of pattern management
- Review appropriate actions to reduce highs and lows

This session is sponsored by Lifescan

9:30 am to 11:45 am
Room 2 (Main Floor)

1.75 CEU

Lori Berard, RN
Nurse Manager
WRHA
HSC Diabetes Research Group
Lengim Ingram
B.Sc.Pharm

Refreshment Break

CONCURRENT SESSIONS

Session E1: Pharmacist without Borders-Canada and the Mission in Uganda

Purpose: To familiarize the audience with the mandate of the organization of PSF-Canada and to share her personal experiences as a volunteer at the St. Mary's Hospital Lacor, Uganda.

Objectives:

- The humanitarian organization, Pharmacists Without Borders – Canada
- The history of the country of Uganda and St. Mary's Hospital Lacor, Uganda
- The concept of the Mission: Teasdale-Corti Foundation/PSF-Canada in Uganda

Session E2: Preceptor Workshop

The role of the preceptor is essential to the success of a student, intern, or new employee. As preceptors, you are responsible for facilitating their transition from student to professional and helping them bridge the gap between theory and practice. To fulfill the responsibilities of the preceptor, the pharmacist acts as a role model, educator, supervisor, and evaluator. It is important to remember that the preceptor will have a lasting impact upon the student or intern. This workshop is designed to prepare pharmacists for their role as preceptors. After completion of the program participants should be able to:

- Explore the importance of and provide a thorough orientation to students or interns on the first day of their experiential rotation or internship.
- Identify generational differences and how they affect attitudes, work habits, and motivation in the workplace.
- Develop and improve skills in providing ongoing, effective feedback and evaluating students and interns.
- Define an approach to handle difficult situations and conflict with students or interns during their experiential rotations or internship.

Refreshment Break

1:30 pm to 3:00 pm
Room 3 (Main Floor)
1.5 CEU

Lisa Brander,
Major (Retired) C.D.,

Manitoba Pharmaceutical
Association

3:00 pm to 3:15 pm
First Floor Lobby

SUNDAY, APRIL 22ND, 2012

Welcome to the Profession: Student Preparation

This session is designed for 4th Year Pharmacy Students and International Pharmacy Graduates who are entering the profession of pharmacy. Come and interact with licensed pharmacists and receive tips and mock scenarios.

This session is sponsored by Loblaw Company Limited

1:30 pm to 4:30 pm
Room 8/10 (Main Floor)
Amy Oliver, BSc Pharm
Associate Owner
Shoppers Drug Mart Polo Park

Session F: Headline News for Pharmacists

Topic 1: Marketed Health Products Directorate

This session will address the critical role of healthcare practitioners in safety surveillance of health products. Focus will be on natural health products, adverse reaction reporting, and how Health Canada uses such information for enhancing public safety.

Topic 2: New Canadian Injection Recommendations for Patients with Diabetes

This presentation will provide background information on the rationale for development of a best practice recommendation document to provide guidance to Canadian Health Care Professionals to ensure the injectable therapy is being delivered – at the right dose, to the right site with the right technique every time. The recommendations will be briefly introduced as well as the rationale for the recommendations will be discussed.

This topic is sponsored by BD Medical

Topic 3: Calcium Does a Body Good?

Recent attention to the potential cardiac risks associated with calcium supplementation is forcing pharmacists to reexamine the benefit and risks of this common therapy. This session will seek to review recent literature and provide a context to inform your advice to customers.

3:15 pm to 4:30 pm
Room 3 (Main Floor)
1.25 CEU

Dr. Mano Murty, MD, CCFP, FCFP
Manager Clinical Section of
MHPD at Health Canada
Dr. Kevin Bernardo BHsc
(Hon.), ND

Manitoba Regional
Coordinator, Canada Vigilance
Program
Health Canada

Lori Berard, RN
Nurse Manager
WRHA
HSC Diabetes Research Group
Shawn Bugden B.Sc.Pharm
Associate Professor
Faculty of Pharmacy,
University of Manitoba

The continued success of the Annual Manitoba Pharmacy Conference would not be possible without the ongoing support and commitment of the Conference Planning Committee. The 2012 Committee was comprised of:

Mel Baxter, MSP
Rose Dick, CAPT
Alison Desjardin, MSP

Jill Ell, MSP
Shawn Bugden, MPhA
Kim McIntosh, MPhA

Bonita Collison, MSP
Gayle Romanetz, MSP
Amy Oliver, MSP

Thank you to all committee members!

If you would like to become part of the 2013 Conference Planning Committee please send an email to info@mbpharmacyconference.com.
